

Muhammad Marjan Ahmed

Full-Stack Developer · Frontend Engineer · Agentic AI Developer

+92 305-112-6649 · marjanahmed.dev@gmail.com · marjanahmed.vercel.app · github.com/marjan-ahmed · linkedin.com/in/hafizmarjanahmed · Karachi, Pakistan

SUMMARY

Full-stack & Agentic AI developer with **3+ years** shipping production apps in Next.js, React, and TypeScript. Specialized in LLM integration, multi-agent systems (OpenAI Agents SDK, MCP), and prompt engineering. **AI Financial Hackathon Champion** (LandingAI) · **2nd Place** Cloudways × DigitalOcean · **Top 10** Google Build with AI · **1,000+ PyPI downloads**. Available for contracts immediately; full-time from May 2026.

AWARDS & COMPETITIONS

- **AI Financial Hackathon Champion** — LandingAI (Dec 2025) · **2nd Place** — Cloudways × DigitalOcean Hacktoberfest 2025
- **Top 10** — Google Build with AI, GDG Kolachi · **NASA Space Apps Ambassador 2025** — drove 16+ registrations
- **Agentic AI Hackathon Finalist** — IBM watsonx / lablab.ai (Nov 2025) · **800+** LinkedIn followers

TECHNICAL SKILLS

Languages & Frameworks: TypeScript, JavaScript (ES2022+), Python · Next.js 14, React.js, Node.js, Tailwind CSS, Redux Toolkit, Zustand, Zod, Three.js

AI & Agents: OpenAI Agents SDK, MCP, LLM integration, prompt engineering, tool-calling agents, structured outputs, multi-agent orchestration, Gemini API, LandingAI ADE, Claude Code

Backend / Infra: Supabase (PostgreSQL), Sanity CMS, RESTful API design, Stripe, Clerk, OAuth 2.0, Vercel CI/CD, Git (160+ repos) · Testing: Vitest, Lighthouse

EXPERIENCE

Web Developer — Reintechs

Jun – Oct 2025 · Remote, Karachi

- Engineered and deployed **5–7 client production websites** — including a Next.js + headless WordPress/WooCommerce clothing brand storefront — independently owning UI, CMS, and checkout flow across **3–4 week delivery cycles**. Earned written commendation for "excellent knowledge and command in multiple areas."

Freelance Full-Stack Developer — Self-Directed & GIAIC Clients

Jan 2023 – Present

- Designed, built, and shipped **160+ GitHub repositories** — web apps, open-source CLI tools, and AI prototypes — across GIAIC, GDG, NASA, and LandingAI engagements, demonstrating sustained independent delivery over **3+ years** alongside full academics.

PROJECTS

DocSamajh AI — AI Financial Reconciliation · LandingAI Hackathon Champion

Nov 2025

- Architected a multi-agent LLM system (tool-calling agents, structured outputs, MCP) automating invoice-to-PO matching at **~85–90% accuracy**, cutting manual effort by **~70%**. Implemented human-in-the-loop review for low-confidence matches to ensure 100% data integrity. · [Live Demo](#) · [GitHub](#)

Gemini Starter Agent — Open-Source CLI Tool · PyPI Package

Sep 2025

- Built and published a CLI scaffolding tool that bootstraps a fully configured Gemini agent project (UV structure, venv, **.env**, ready-to-run **main.py**) via interactive prompts — accumulated **1,000+ PyPI downloads** within weeks of launch. · [PyPI](#) · [GitHub](#)

Hekto Marketplace — GIAIC 6-Day Hackathon Sprint

Jan – Feb 2025

- Spearheaded a full furniture e-commerce platform (Next.js 14, Sanity CMS, Clerk, ShipEngine) from zero to deployed in **6 days** — complete 6-phase documentation, Lighthouse auditing, and **50+ QA test cases** in structured CSV reports. Featured at GIAIC demo day. · [Live Demo](#) · [GitHub](#)

EDUCATION

Agentic AI & Cloud Engineering — GIAIC (Governor's Initiative for AI & Computing)

Feb 2024 – Present

Professional GenAI certification: TypeScript, Next.js, Python, OpenAI Agents SDK, MCP.

Matriculation, Biology & General Science — Education Trust Nasra School (AK-UEB Board)

2022 – 2026

Board exams completing Apr 2026. Tech career built independently alongside full academic load.

CERTIFICATIONS

Claude 101 — Anthropic (Mar 2026) · **Intro to OpenAI Agents SDK** — CodeSignal (Sep 2025) · **Intro to GenAI** — Google Cloud (Jul 2024) ·

Responsive Web Design — freeCodeCamp (Jul 2024)
